

## CLAIM OR CLAIMS

I/WE CLAIM:

1. An oven comprising  
a housing with an opening in the front and with electric heating elements in the interior thereof;  
a removable tray inserted into the opening in the housing and adapted to carry the food to be cooked thereon;  
a electronic user operable control integrated into the front of the housing, the control having two temperature selection user selectable controls thereon, one higher temperature selection control causing the oven to cook at a temperature appropriate for pre-baked crust pizzas and one lower temperature selection control causing the oven to cook at a temperature appropriate for self-rising crust pizzas.
2. An oven as claimed in claim 1 wherein the control also included controls for varying time upward and downward, the control defaulting the time for cooking to a time appropriate for either a pre-baked crust pizza or a self-rising crust pizza, depending on which of the temperature controls is selected.
3. An oven as claimed in claim 1 wherein the opening in the front of the oven is at least about 3 inches to accommodate a pizza the crust of which has risen in the oven.

4. A cooking oven comprising

a housing with an opening in the front and with electric heating elements in the interior thereof, the opening in the front of the open being at least about 3 inches;

a removable tray inserted into the opening in the housing and adapted to carry the food to be cooked thereon;

a electronic user operable control integrated into the front of the housing, the control having a time display, two temperature selection buttons, and two timing changing buttons, the control connected such that (1) when a user selects a high temperature button, the control causes the oven to cook at a temperature appropriate for a pre-baked crust pizza and defaults to a cooking time appropriate for a pre-baked crust pizza, (2) when a user selects a low temperature button, the control causes the oven to cook at a temperature appropriate for a self-rising crust pizza and defaults to a cooking time appropriate for a self-rising crust pizza and (3) when the user presses one of the timing changing buttons, the control changing the time of cooking from the default upwards or downwards as selected by the user.
